

Child Activity Matrix

Use this activity matrix to determine when to provide extra teaching and learning opportunities for a specific child based on their learning objectives. List your scheduled activities, routines, and transitions down the left column and write the child’s learning objectives across the top. Then, mark during which times and activities you will provide instruction on each learning objective.

Child’s Name: _____ Educator’s Name: _____ Date: _____

Learning Activities	Objective 1	Objective 2	Objective 3	Objective 4
