

Group Activity Matrix

Use this activity matrix to determine when to provide extra teaching and learning opportunities for up to five children, based on their learning objectives. List your scheduled activities, routines, and transitions down the left column and write each child's name across the top. Place each child's learning objectives in the boxes that correspond to the times you plan to provide instruction focused on the objectives.

	Educator's Name:		Date:		_	
Daily Activities, Routines, and Transitions	Child 1	Child 2	Child 3	Child 4	Child 5
