Relationship-Building Behaviors

What are essential behaviors for building relationships with children? How does a child benefit when an educator uses these behaviors? Write your ideas in the boxes below. Think of a child you can build more connections with and try out some of the actions you list below.

Relationship-Building Behavior	How does the child benefit when these relationship-building behaviors are used?
<i>(Example) Planning activities based on the child's interest.</i>	<i>Helps increase the child's engagement in learning. Child may feel "known" in their learning environment.</i>
