

Eating at the Table

My name is _____ and I am _____ years old.
I go to preschool at _____.

At school, we eat our meals and snacks while we sit at the table.

Sitting at the table makes it easier to eat safely and neatly. When it is mealtime, I will try and stay sitting at the table until my teachers say I can be all done and get up. Until they tell me I can get up, I will keep sitting at the table.

My teachers like it when I stay at the table while I am eating my meal or my snack.
