

Operations and Algebraic Thinking, Video 2

Teacher: Camilla, help me do a pattern. I made a pattern. Can you come say the pattern with me? You ready? Let's see if you can catch the pattern. You ready?

Camilla: Green.

Teacher: Brown.

Camilla: Brown, green, brown, green, brown.

Teacher: Ah, what comes next?

Camilla: Green.

Teacher: [Gasps] Green. There. Can you take the... You can use that one. So, after the green one, what's gonna be the last color that we're gonna use?

Camilla: Brown.

Teacher: Brown! Good.

Boy: I said that already.

Teacher: You both said it.

Boy: Oh, look at that.

Teacher: So now we created a pattern.

Girl: Oh, no. I ripped it.

Teacher: So, what are you gonna do with your strip? You can do anything you want to. I'm gonna pull some of this down here so you can have it to use, okay?
