

## Scientific Inquiry, Video 1

Teacher: They're attracting, sticking to each other. So that -- You get to keep the magnet, and we'll leave the clip right here.

Girl: Let me see.

Teacher: See how the arrows go together?

Girl: Yeah.

Teacher: That means they're going to attract, stick to each other.

Girl: That means no attraction.

Teacher: That -- That's right. No attraction. Those -- Those repel each other. The shell and the foil.

Girl: Yeah, they repel. That means, no, you can't stick it. That means you can stick it.

Teacher: That's right. You're understanding all about magnets.
